Ramaji and Ananda Devi are spiritual teachers and give the RASA™ spiritual transmission together. Ramaji is the author of 8 books on non-duality including the modern spiritual classic *1000*. Ananda Devi is a single mother with 3 teenagers. She had a Kundalini awakening at 13 years old. Along with her deep existential realization of non-duality and universal love her presence conveys powerful Shakti energy. When they met they immediately recognized that they were destined to be together. In Spring 2011 Ramaji was doing a simple prayer to heal a loved one. A huge ball of radiant white light came down. The RASA™ Transmission for spiritual awakening and enlightenment was born.
